

Lecture # 10:**Objective:**

- List Box Example
- Data Grid View

List Box:

```
using System;
using System.Collections.Generic;
using System.ComponentModel;
using System.Data;
using System.Drawing;
using System.Linq;
using System.Text;
using System.Windows.Forms;

namespace COMBOBOX
{
    public partial class listViewExample : Form
    {
        public listViewExample()
        {
            InitializeComponent();
        }

        private void btnSelect_Click(object sender, EventArgs e)
        {

```

```
        int index = lstbxSubjects.SelectedIndex;
        if (index == -1)
        {

        }
        else
        {
            string item = lstbxSubjects.SelectedItem.ToString();
            lstbxSubjects.Items.RemoveAt(index);
            lstbxSelected.Items.Add(item);
        }
    }

    private void btnSelectAll_Click(object sender, EventArgs e)
    {
        foreach (string item in lstbxSubjects.Items)
        {
            lstbxSelected.Items.Add(item);
        }
        lstbxSubjects.Items.Clear();
    }

    private void btnUSel_Click(object sender, EventArgs e)
    {
        int index = lstbxSelected.SelectedIndex;
        if (index != -1)
        {
            string item = lstbxSelected.SelectedItem.ToString();
            lstbxSelected.Items.RemoveAt(index);
            lstbxSubjects.Items.Add(item);
        }
    }

    private void btnUSelAll_Click(object sender, EventArgs e)
    {
        foreach (string item in lstbxSelected.Items)
        {
            lstbxSubjects.Items.Add(item);
        }
        lstbxSelected.Items.Clear();
    }
}
}
```

Data Grid View:

The screenshot shows a Windows application window titled "DataGridView Example". Inside the window, there is a form with the following elements:

- A "Degree" label followed by a dropdown menu currently showing "MSC/MS".
- A "% Marks" label followed by a text box containing the value "45".
- An "ADD" button to the right of the text box.
- A DataGridView table below the input fields. The table has two columns: "Degree" and "Percenatge". It contains two data rows: one with "BSC/BA" and "60", and another with "MSC/MS" and "45". There is also an empty row with an asterisk (*) in the first column.
- At the bottom of the form, there are two buttons: "CLEAR" and "EXIT".

```

using System;
using System.Collections.Generic;
using System.ComponentModel;
using System.Data;
using System.Drawing;
using System.Linq;
using System.Text;
using System.Windows.Forms;

namespace COMBOBOX
{
    public partial class DataGridViewExample : Form
    {
        public DataGridViewExample()
        {
            InitializeComponent();
        }

        private void btnAdd_Click(object sender, EventArgs e)
        {
            if (cmbxDegree.SelectedIndex == -1)
            {
                MessageBox.Show("Select Degree");
                cmbxDegree.Focus();
            }
            else if (txtMarks.Text == string.Empty)
            {
                MessageBox.Show("Enter Percentage");
            }
        }
    }
}

```

```
        txtMarks.Focus();
    }
    else
    {
        try
        {
            float ehPer = float.Parse(txtMarks.Text);
            dgvRecords.Rows.Add(cmbxDegree.SelectedItem.ToString(),
txtMarks.Text);
        }
        catch (Exception)
        {
            MessageBox.Show("Percentage should be numeric");
            txtMarks.Focus();
        }
    }
}

private void btnClear_Click(object sender, EventArgs e)
{
    cmbxDegree.Text = string.Empty;
    txtMarks.Text = string.Empty;
    dgvRecords.Rows.Clear();
}

private void btnExit_Click(object sender, EventArgs e)
{
    Application.Exit();
}
}
```
